Product Directions
Equipment to use:
Cloth or sponge and protective eyewear.

Directions for use:
It is Violation of Federal Law to use this product in a manner inconsistent with its labeling.
To Clean: Prior to disinfection, thoroughly pre-clean all surfaces to be treated by removing all gross filth and heavy soil.
To Disinfect: Hold can upright and spray from a distance of 6 to 8 inches until area for treatment is thoroughly moistened. Allow surfaces to remain wet for 10 minutes before wiping. After disinfection, a potable water rinse is required. Do not use to disinfect appliances, refrigerator interiors and microwave oven interiors. Do not use on dishes, glasses or utensils.
To Sanitize: Spray surface until entire area is thoroughly wet. Allow to remain wet for 5 minutes before wiping.
For Control Of Mold And Mildew On Hard, Non-porous Environmental Surfaces: Spray surfaces until thoroughly moistened. Allow to air dry. Repeat application in 7 days.
For Control Of Trichophyton Interdigitale (Athlete's Foot Fungus) in areas such as bathrooms, locker rooms, floors, benches, shower stalls or other non-porous environmental surfaces commonly contacted by bare feet: spray surface until thoroughly moistened. Allow surfaces to remain wet for 10 minutes. Allow to air dry.

Check with GFS regarding product availability and registration status in your state. Ask your sales rep for more information.
