Important

Read and understand the label and Safety Data Sheet (SDS). These provide a description of hazards, precautions, personal protective equipment, first aid, 24 Hour Emergency lines, storage data and other safe handling information. The SDS is provided with each container shipped, it is also available from the distributor.

Product Directions

Equipment to use:

Jug or pail pump, abrasive pad and stiff brush.

Directions for use:

General use: Use this product at 1 - 2 ounces per 3 gallons of water for general lime control. Allow to soak for several minutes, then brush surface.

Heavy lime deposit: Use 2 - 3 ounces per gallon of water. Allow areas of heavy lime deposits to soak for several minutes, then brush surface.

Dish machine:

1. Drain, flush, and clean out machine. DO NOT add lime solution to dish machine containing dishwashing detergent.
2. Close drain valve, fill tank(s) with hot water.
3. Add lime solution at 4 ounces per gallon of water.
4. Turn on pumps until lime can be brushed or flushed away.
5. Drain tank and flush. Always use rubber gloves if product may contact hands.

Notes: DO NOT let lime solution remain in unattended dish machine. DO NOT use on soft metals.
