Important

Read and understand the label and Safety Data Sheet (SDS). These provide a description of hazards, precautions, personal protective equipment, first aid, 24 Hour Emergency lines, storage data and other safe handling information. The SDS is available using the QR code on the label and is also available from the distributor

Product Directions

Equipment to use:

Spray bottle, cleaning cloths, rubber gloves, eye protection.

Directions for use:

Rubber gloves and eye protection are recommended. NOTE: For gas ovens, do not spray on pilot light. For electric ovens, do not spray on heating element. Use in either warm 150°–200°F (66°-94°C) or cold empty oven. Clean racks separately. Spray foam over interior surface. Allow foam to work 10-15 minutes. Wipe clean with wet cloth, sponge or paper towels. Be sure all foam is removed. Rinse. Repeat if necessary. Do not use on aluminum.
