- Iodine odor
- Clear, slightly viscous liquid
- Moderate foam
- 3.0-3.5 pH use dilution
- Phosphorus not over 2.5%
- EPA approved
- cRc approved

Important

Read and understand the label and Safety Data Sheet (SDS). These provide a description of hazards, precautions, personal protective equipment, first aid, 24 Hour Emergency lines, storage data and other safe handling information. The SDS is provided with each container shipped, it is also available from the distributor.

Product Directions

Equipment to use:

Jug pump, wall pump or faucet feeder, recommended automatic dispensing system.

Directions for use:

Bar and restaurant cold water glasswashing

1. Dump waste from glasses and rinse.
2. Wash in glasswasher. Don't overload machine. Be sure machine is supplied with detergent.
3. Use this product in final rinse to sanitize. Adjust pump to deliver the proper amount of titratable iodine (12.5 ppm = 1 ounce Low-Foam Iodophor to 10 gallons water) and verify concentration. Low-Foam Iodophor should be used in glasswashing equipment with a final rinse cycle of at least 30 seconds as required by FDA Food Code §4-703.11 (C)(3).
4. Allow glasses to air dry – do not towel dry.

Foodservice utensil cleaning and sanitizing procedure

Prepare fresh sanitizing solution daily or more frequently if solution becomes diluted or soiled.

1. Pre-flush all surfaces to remove loose, gross soils.
2. Wash in a recommended detergent solution.
3. Rinse in clear water.
4. Sanitize in a solution of 1 ounce of product to 5 gallons of water by immersing for one minute. (25 ppm titratable iodine)
5. Air dry. Do not towel dry. Store all clean utensils in a clean, dry, protected area.
