Important

Read and understand the label and Safety Data Sheet (SDS). These provide a description of hazards, precautions, personal protective equipment, first aid, 24 Hour Emergency lines, storage data and other safe handling information. The SDS is provided with each container shipped, it is also available from the distributor.

Product Directions

Equipment to use:

Spray bottle and measuring device.

Directions for use:

Sink drains: 4 ounces twice weekly. Vary amount and frequency according to usage and size of drain. Wash basins/shower stalls/bathtubs: 4 ounces weekly.
Uric acid odor neutralizer: vigorously attacks and destroys uric acid and other malodors. Refuse containers: digests organic waste and completely neutralizes all malodors.
General deodorizing: superb for deodorizing kennels, cigarette urns, bed pans, and similar places where foul odors are present. Recreational vehicles & marine holding tanks: add 3 ounces per gallon of liquid in holding tank. Porta-toilets & outhouses: add bottle to solids to deodorize and aid in digestion.
Garbage disposals: 2 ounces weekly for digestion and deodorizing.
Grease traps: initial treatment - pour bottle into opening closest to trap, prior to its longest non-use period. For maintenance purposes, use 4 ounces daily (large traps may require additional amounts).
