

Concentrated Quarry-Chlor Floor Cleaner

Reorder No. 484521 / 4-1 gal.

Features
- Chlorinated
- Concentrated formula

Benefits
- Removes stain
- Lower cost of use

Recommended Uses
For cleaning quarry tile and other unglazed ceramic tile floors.

Specifications
- Straw color
- Chlorine odor
- Clear, non-viscous liquid
- Moderate foam
- Greater than 12.0 pH use dilution
- Contains 1.2% phosphorus
- cRc approved

Important
Read and understand the label and Safety Data Sheet (SDS). These provide a description of hazards, precautions, personal protective equipment, first aid, 24 Hour Emergency lines, storage data and other safe handling information. The SDS is provided with each container shipped, it is also available from the distributor.

Product Directions
Equipment to use:
Cleaning cloth, mop, hand sprayer or spray gun.

Directions for use:
USE DILUTION: 0.2 – 4 ounces per 1 gallon of water.
1. Dispense or mix proper strength solution of product and warm water in a mop bucket.
2. Post “Wet Floor” signs and, using a clean mop, apply the cleaning solution generously to the floor, overlapping mop strokes. For best results, scrub the floor with a brush, especially if the floor has grout.
3. Repeat if necessary on heavily soiled areas. Pick up soil and excess solution with a tightly wrung out mop, wringing it out frequently, or squeegee to floor drain. Rinse or damp mop floor clean.
4. Dry mop or squeegee floor dry or allow floor to air dry before reuse. Once dry, remove “Wet Floor” signs.

NOTE: Floors will be slippery when wet or contaminated with foreign materials. Promptly clean-up spills and foreign materials.
