- Contains no phosphorus
- High foam

Important

Read and understand the label and Safety Data Sheet (SDS). These provide a description of hazards, precautions, personal protective equipment, first aid, 24 Hour Emergency lines, storage data and other safe handling information. The SDS is available using the QR code on the label and is also available from the distributor.

Product Directions

Equipment to use:

Recommended dispensing system, abrasive pad and stiff brush.

Directions for use:

This product should be dispensed only from equipment designed specifically to handle solid capsule detergents. Remove cap and place inverted capsule into bowl unit. Set the detergent timer to flush an adequate amount of water against block and flow into sink. Typical usage is 1 oz to 2 ounces per 20 gallons of water. Fill the remainder of the sink with warm water (80°-120° F). Wash kitchenware in sink. Rinse and sanitize as required. For pots and pans that require extra soaking, direct detergent solution into sink and fill with warm to hot water. Place pots and pans into sink and allow soaking until the soils can be easily removed.
