Important

Read and understand the label and Safety Data Sheet (SDS). These provide a description of hazards, precautions, personal protective equipment, first aid, 24 Hour Emergency lines, storage data and other safe handling information. The SDS is provided with each container shipped, it is also available from the distributor.

Product Directions

Equipment to use:

Recommended dispensing system.

Directions for use:

Utensil sanitization

1. Pre-flush utensils and glasses whenever possible.
2. Wash in first tank using a recommended detergent.
3. Rinse in second tank.
4. Sanitize in a 2 ounces to 5 gallon solution (200 *ppm). Immerse all utensils for at least two minutes or for contact time specified by governing sanitary code.
5. Place sanitized utensils on a CLEAN, SANITIZED rack or drainboard to air dry.

Low-temperature warewash sanitization

1. Pre-flush and/or scrape dishes before washing.
2. Rack dishes properly. Place dishes in machine.
3. Wash using a recommended warewash detergent for low temperature washing.
4. In rinse cycle, use a recommended rinse additive. Be sure rinse injector is working properly.
5. Sanitize using this product at 50 *ppm. Adjust sanitizer pump to dispense the proper solution.
6. Allow dishes to air dry.

Check with us regarding availability/product registration status in your state.
(*ppm means parts per million of available chlorine in this product solution.)
