Important

Read and understand the label and Safety Data Sheet (SDS). These provide a description of hazards, precautions, personal protective equipment, first aid, 24 Hour Emergency lines, storage data and other safe handling information. The SDS is provided with each container shipped, it is also available from the distributor.

Product Directions

Equipment to use:

Manually pour or automatic dispensing system.

Directions for use:

Blocked Drains: remove as much standing water as possible. Pour the entire contents of the bottle in clogged drain. Allow to work overnight if possible. Flush with hot water.

Slow Drains: treat drains on lowest floor first. Every other day move up one floor. Add 4 ounces of product for each inch of drain pipe. Add at lowest water-use period for best results. Continue daily until system flows freely. Then add every other week, as a preventative maintenance measure.
